

INBRED MAIZE LINE PH3AV

Hartwig J. B. Wehrmann

Abstract

5 An inbred maize line, designated PH3AV, the plants and seeds of inbred maize
line PH3AV, methods for producing a maize plant, either inbred or hybrid, produced by
crossing the inbred maize line PH3AV with itself or with another maize plant, and hybrid
maize seeds and plants produced by crossing the inbred line PH3AV with another maize
line or plant and to methods for producing a maize plant containing in its genetic
10 material one or more transgenes and to the transgenic maize plants produced by that
method. This invention also relates to inbred maize lines derived from inbred maize line
PH3AV, to methods for producing other inbred maize lines derived from inbred maize
line PH3AV and to the inbred maize lines derived by the use of those methods.
